Dear Papa: -

I guess we will get our wheel this evening or tomorrow morning one.

I believe I can draw that Caladium now without looking at it.

It is just pouring down rain and we will have to play in the house and I am so sorry I don't know what to do.

We have two new pupils today. Sis Ann is one and Eleanor C. Russell is the other.

I am getting along fine in my music.

I guess Uncle Willie will come after us if it continues raining as we don't wear any caps.

Are you going to Portsmouth
this week?

I don't know if Patter is going
to write to day or not if she
don't I will have to ~~keep~~ my letter
untill she does write.

Now I must close

With a kiss and a hug.

I am your little baby boy.

Gracie

My dearest Papa:

I will write
some now and finish
after I get school.

I wish you could see
your caladium, the rain
and our watering it this
week certainly has improv-
ed it. It has a bud on it.

We got our wheels yester-
day in splendid order
they will not have to be
pump it up to ride to school.
We are getting on fine at
school.

See Green has comenced wall-
ing up the well.

Please thank Aunt A.
for the nice birth-day
present she sent me.

Have you heard from
Lellie this week, if not I
think it is very strange
as no mail has come to
you here. Have you sent
Lellie our pictures if not
please put our ages on
them. Aunt J. was going
to make me a cake but
did not feel well.

Hugh is having a time
with his boils.

If you do not come home
send .50 for washing, 25 for
starch, and .15 for soap.

I believe I have told all
of the news.

Mrs. C. is no better.

Take good care of your
dear self. With all of my
love and kisses. Ever
your devoted daughter
Pattie.
